

#10

The Aquatic Nuisance Species Task Force (ANS Task Force) Strategic Plan (Plan) expires after 2012. The Plan serves as a blueprint and highlights five goals with corresponding objectives for fulfilling the ANS Task Force's mission. Discussion at the May meeting will focus on both the current Plan and possible revisions for the next iteration of the Plan. FY 10 accomplishments for three priority objectives will be presented and the preferred means of tracking accomplishments for three priority objectives for FY11 will be discussed. Additionally, decisions will be made about establishing an ad-hoc committee to update the Strategic Plan along with a system for tracking accomplishments.
